# NOVEMBER QUESTION BANK

Computer – 1st.Sec

First Term 2023 – 2024

إعداد وتصميم/فريق أصدقاء الكمبيوتر – أ/ياسمين شعيب

Questions

1. Effects can be added to specific sections of audio through sound processing programs   (√)

2. any type of Data)images, audio, or video(can be entered into the spreadsheet in Excel.   (X)

3. Wav audio file is smaller in size compared to the mp3 type .   (X)

4. gif image has higher colors and clarity compared to the jpg type .   (X)

5. It is preferable to use bmp images when creating websites   (X)

6. .Image processing applications are used to process audio files   (X)

7. Sound processing programs are used to modify the dimensions of images.   (X)

8. Effects can be made on specific sections of audio through sound processing applications   (√)

9. Audio files can have the extensionsmp3 – wav .   (√)

10. An audio processing program can be used to loop a clip within an .audio file   (√)

11. The Internet provides video files of the typesmp4 – wmv – wmf .   (X)

12. MS Paint .is used to edit image and video files   (X)

13. 3gp .video file is characterized by high quality and small size   (X)

14. Sound Recorder is one of the audio recording programs that comes bundled with the Windows operating system   (√)

15. Sound Recorder allows you to record sound and save it on your computer   (√)

16. When recording, the recording time is not controlled.   (X)

17. The longer the recording time, the smaller the sound file size.   (X)

18. One of the most popular audio files is MP3   (√)

19. The appropriate controls(Toolbox) cannot be inserted to play   (X)
    different types of audio files

20. WAV file is used to store information about raw, uncompressed   (√)
    audio data

21. WMA file is higher quality than Mp3   (√)

✎ **Question ٢: Complete the following sentences:-**

1) .Image file type .... is less colorful compared to other types

(jpg – png – gif)

2) ...The following image types support transparency, except for the type

(jpg – png – gif)

3) ...The following types are considered types of video files, except for

.(wmv – wav – mp4)

4)   .... Animated image files have the extension

(jpg – png – gif)

5) maybe Insert Species Different from Files the pictures inside a tool Control(

PictureBox) except Type...................

(jpg – png – raw)

6) data required For the project Be from Type....................... .

(A Texts.

b) Pictures.

C) Sounds, Music or Video Clips.

D) All of the above.

7) .You use the .... tool from the toolbar to crop part of the image

(crop – Shadow – Adjustment)

8) The name of the file with the extension.......... The image is clearer and more accurate because it deals with ١٦ million colors.

(BMP – JPG – GIF)

9) When you select the image by clicking on it, the number of anchor points appears, which are used to scale images.

(4 – 6 – 8)

10)   ...These are valid extensions for image file names except

(AIH – JPG – GIF)

11).................Larger audio file

(AIH – JPG – WAV)

12)   ...These are valid extensions for audio file names except

(PNG – MP3 – WAV)

13) ....Smaller audio file

(WMA – WAV – MP3)

Model Answer

1. Effects can be added to specific sections of audio through sound processing programs ( )
2. any type of Data)images, audio, or video(can be entered into the spreadsheet in Excel. ( )
3. Wav audio file is smaller in size compared to the mp3 type . ( )
4. gif image has higher colors and clarity compared to the jpg type . ( )
5. It is preferable to use bmp images when creating websites ( )
6. .Image processing applications are used to process audio files ( )
7. Sound processing programs are used to modify the dimensions of images. ( )
8. Effects can be made on specific sections of audio through sound processing applications ( )
9. Audio files can have the extensionsmp3 – wav . ( )
10. An audio processing program can be used to loop a clip within an .audio file ( )
11. The Internet provides video files of the typesmp4 – wmv – wmf . ( )
12. MS Paint .is used to edit image and video files ( )
13. 3gp .video file is characterized by high quality and small size ( )
14. Sound Recorder is one of the audio recording programs that comes bundled with the Windows operating system ( )
15. Sound Recorder allows you to record sound and save it on your computer ( )
16. When recording, the recording time is not controlled. ( )
17. The longer the recording time, the smaller the sound file size. ( )
18. One of the most popular audio files is MP3 ( )
19. The appropriate controls(Toolbox) cannot be inserted to play different types of audio files ( )
20. WAV file is used to store information about raw, uncompressed audio data ( )
21. WMA file is higher quality than Mp3 ( )

✎ **Question ٢: Complete the following sentences:-**

1) .Image file type .... is less colorful compared to other types
(jpg – png – <u>gif</u>)

2) The following image types support transparency, except for the type,.............
(**jpg** – png – gif)

3) The following types are considered types of video files, except for.................
.(wmv – **wav** – mp4)

4)   Animated image files have the extension.................
(jpg – png – **gif**)

5) maybe Insert Species Different from pictures Files inside a tool Control(PictureBox) except Type...................
(jpg – png – **raw**)

6) data required For the project Be from Type....................... .
(ATexts.
b) Pictures.
C) Sounds, Music or Video Clips.
D) All of the above.

7) .You use the .... tool from the toolbar to crop part of the image
(**crop** – Shadow – Adjustment)

8) The name of the file with the extension........... The image is clearer and more .accurate because it deals with ١٦ million colors
(BMP – **JPG** – GIF)

9) When you select the image by clicking on it, the number of anchor points .appears..............which are used to scale images،
(4 – 6 – **8**)

10)   These are valid extensions for image file names except................
(**AIH** – JPG – GIF)

11) Larger audio file.................
(AIH – JPG – **WAV**)

12)   These are valid extensions for audio file names except...................
(**PNG** – MP3 – WAV)

13) Smaller audio file..................
(WMA – WAV – **MP3**)

Model Exams

Model One

✎ **Question ١: Put (√) Or (X):**

1. Data of any type (images, audio, or video) can be entered into the spreadsheet in Excel.   ( )

2. Effects can be made on specific sections of audio through sound processing applications.   ( )

3. Audio files can have the extensions mp3 – wav.   ( )

4. 3gp. video file is characterized by high quality and small size   ( )

5. Sound Recorder is one of the audio recording programs that comes bundled with the Windows operating system   ( )

✎ **Question ٢: Complete the following sentences :–**

1) Image file type .... is less colorful compared to other types.
     (jpg – png – gif)

2) maybe Insert Species Different from Files the pictures inside a tool Control(PictureBox) except Type...................
     (jpg – png – raw)

3) data required For the project Be from Type........................ .
(A Texts.
b) Pictures.
C) Sounds, Music or Video Clips.
D) All of the above.

4) You use the .... tool from the toolbar to crop part of the image.
     (crop – Shadow – Adjustment)

5) The name of the file with the extension.......... The image is clearer and more accurate because it deals with ١٦ million colors.
     (BMP – JPG – GIF)

Model Two

✎ **Question 1: Put (√) Or (X):**

1. Effects can be added to specific sections of audio through sound processing programs. ( )

2. Effects can be made on specific sections of audio through sound processing applications. ( )

3. Sound Recorder is one of the audio recording programs that comes bundled with the Windows operating system ( )

4. When recording, the recording time is not controlled. ( )

5. WAV file is used to store information about raw, uncompressed audio data ( )

✎ **Question 2: Complete the following sentences:–**

1) The following image types support transparency, except for the type…………
   (jpg – png – gif)

2) The following types are considered types of video files, except for…………..
   .(wmv – wav – mp4)

3) When you select the image by clicking on it, the number of anchor points appears……………which are used to scale images،
   (4 – 6 – 8)

4) These are valid extensions for image file names except………………
   (AIH – JPG – GIF)

5) Larger audio file………………
   (AIH – JPG – WAV)

Model Three

✎ **Question 1: Put (√) Or (X):**

1. Wav audio file is smaller in size compared to the mp3 type .   ( )

2. gif image has higher colors and clarity compared to the jpg type .   ( )

3.   The Internet provides video files of the types mp4 – wmv – wmf .   ( )

4. Sound Recorder allows you to record sound and save it on your   ( )
    computer

5.   The appropriate controls (Toolbox) cannot be inserted to play   ( )
    different types of audio files

✎ **Question 2: Complete the following sentences:-**

1) .Image file type .... is less colorful compared to other types
                        (jpg – png – gif)

2) The following types are considered types of video files, except for.............
                        .(wmv – wav – mp4)

3) maybe Insert Species Different from Files the pictures inside a tool Control(
   PictureBox) except Type...................
                        (jpg – png – raw)

4) These are valid extensions for image file names except................
                        (AIH – JPG – GIF)

5) Smaller audio file................
                        (WMA – WAV – MP3)

Model One

✎ Question ١: Put (√) Or (X):	✎ Question ٢: Complete the following sentences:-
(X)	gif
(√)	raw
(√)	. D) All of the above
(X)	crop
(√)	JPG

Model Two

✎ Question ١: Put (√) Or (X):	✎ Question ٢: Complete the following sentences:-
(√)	jpg
(√)	wav
(√)	8
(X)	AIH
(√)	WAV

Model Three

✎ Question ١: Put (√) Or (X):	✎ Question ٢: Complete the following sentences:-
(X)	gif
(X)	wav
(X)	raw
(√)	AIH
(X)	MP3
